**NCCC VOTES HIGH HONORS FOR  
PREXY AFTER GREAT YEAR**

TV GUIDE DE N6TV

Yes folks, this will be my swan song. It has been a great pleasure to have served the NCCC as your President during the past year, and I look forward to serving the club again some time in the future. Looking back, it has been quite a year. Club activity in the CQP and the ARRL Sweepstakes was outstanding. We had a great picnic at WIFEA's QTH, a fun XMAS banquet hosted by N6BT, and a most enjoyable Awards Banquet in Pleasanton. I would like to thank all the people who have made my job easier: first, our hard-working VP/CC Bob, N6IP, whose careful attention to detail came through in his excellent in-depth analyses and Jug Articles, every month. Second, our quiet Secretary/Treasurer Jim, WA6SDM, who kept us on target and within budget and handled a tremendous amount of paperwork as our club kept growing, not to mention printing all the CQP awards and wine labels. Thanks also to our new awards chairman, Ed, W0YK, who did an outstanding job on all the awards and volunteered to do it again next year. Thanks to Louese, KA6ING, who kept me honest, handled the major awards for the XMAS banquet, and kept the morning 2 meter net going on the contest club repeater. Thanks also to Scott, N1EE, who helps the NCCC organize competitive Sprint Teams every 6 months. And finally to Jack W6ISQ, and Marguerite, KC6NFE, whose dedication to getting the Jug out on time every month is appreciated by everyone. Thanks team!

+++ NEXT MEETING +++

**FRIDAY, APRIL 30**  
**PIZZA\*\* VOTES \*\* SLIDES**

and  
Featuring

**THE DOMINICA DUO**  
**BOB N6EK AND SUSAN KB6VVX**  
Meet 'n Eat 7 p.m.-- Program at 7:30

**Hewlett Packard**  
**5301 Steven Creek Blvd., Santa Clara**  
Building 50  
Santa Cruz Conference Room  
See Page 9 for details and map

**THE DOMINICA DUO**

We have a very special presentation planned for our April meeting. As you know, Susan, KB6VVX, and Bob, N6EK, made a trip to beautiful Dominica for the 1993 ARRL DX SSB last month, signing J76EK. Susan will be talking about the Island and the people, Bob will be talking about the contest and the hams. Lots of pretty slides should make for an enjoyable talk. Invite your favorite YL/OM to join us at the meeting. We have

(TV con't page 2 col 1)

scheduled the meeting on a special date, Friday, April 30th, so as not to conflict with either Visalia or Dayton. This will be a pizza meeting and our annual election

#### IN WITH THE NEW

Your board has recommended the following slate of officers for 1993-94

President: N6ST  
VP/CC:AE6Y  
Sec/Treas. AA6KX  
Director K2MM  
Director W0YK  
Director AD6E

Other nominations welcomed at the meeting.

#### CQP WINE AWARDS

Bruce Butler, W6OSP, generously purchased and donated all 60 bottles of 1989 Cabernet Sauvignon to the Contest Club for our CQP Awards Program again this year, as in years past. It is people like Bruce who help make the California QSO Party the best QSO Party in the Country. Many thanks Bruce! We sincerely apologize for neglecting to include Bruce in the list of CQP award sponsors published last month. If you bump into Bruce at Visalia or elsewhere, please thank him on behalf of the contest club.

#### CQP WRITE UP DE K6PU

A big THANK YOU to old reliable Ken Anderson, K6PU, for a super job processing and tabulating the 1992 California QSO Party logs and publishing the results in last month's issue. He sure did a nice job, don't you think? Way to go Ken! A bottle of wine awaits you at Visalia, a small way to say big thanks to you.

#### CQP T-SHIRTS

The shirts are in the mail. Al, AD6E, mailed 110 T-shirts to the masses, with more to come.

---

### NORTHERN CALIFORNIA CONTEST CLUB

PRESIDENT BOB WILSON, N6TV  
VICE-PRESIDENT/CONTEST CHRBOB WOLBERT, N6IP  
SEC/TREAS JIM HOLLENBACK, WA6SDM  
DIRECTOR LOUESE BLOOM, KA6ING  
DIRECTOR TREY GARLOUGH, WN4KKN  
DIRECTOR HENRY STEWART, KJ6LD  
DIRECTOR ANDY FABER, AE6Y

JUG EDITOR JOHN TROSTER, W6ISQ  
82 BELBROOK WAY ATHERTON, CA., 94027  
ASSISTANT TO EDITOR MAGGIE TROSTER, KC6NFE

The JUG is the official journal of the NCCC, published monthly. Copies are mailed to members whose dues are up-to-date. Material submitted for publication must be received no later than the last Monday of the month.

Al has done a fantastic job organizing this new feature of the California QSO Party. Many thanks to our sponsors Force 12 Antennas, HRO, and others who made this popular award possible, and to N6BT for the original design.

#### NEWS FROM THE MEMBERSHIP

An NCCC welcome to Kim Robinson, KM6OH, of San Lorenzo, who joined the NCCC at the Awards Banquet last month. Kim has been an active supporter of the California QSO Party for many years...N6PN is sporting a new HF6V atop his roof in Concord, and will shortly be QRV on 9 HF bands from home. Watch for Matt in upcoming contests...NCCC past president, Ken Ruddock, K6HNZ, recently moved back to the Bay Area permanently and has big plans for antenna refurbishing at his cliff-side QTH overlooking the Pacific in Pescadero. Welcome back Ken!...Congrats to Dick, AA6MC for 1st place multi-single England, 1992 CQ 160, and for achieving 5BDXCC as G0MFO. Dick will also be moving to the Bay Area within the next few months, and is fired up to start contesting from California. Is this the greatest place to live or what?...And another congratulations to Rich, KI3V, for first place Nevada in the 1992 ARRL Sweepstakes on both Phone and CW. Rich will be rejoining the NCCC immediately. Welcome back Rich!

#### PACKET TIP

Do you find yourself typing the same commands every time you log in to the DX Packet Spotting Network? For example, every time I log in, I like to enter SH/WWV/2 to see what conditions are like, DIR/BU/6 to see one-line summaries of the last 6 bulletins posted, and finally SH/DX/6 to see the last 6 DX announcements. Don't you wish there were a way to enter these commands automatically, every time you sign in? Well, there is! Just type UPLOAD/USERCMD <enter>, and then enter your favorite commands, one per line. When you are finished, type /EXIT. Thereafter, every time you sign in to the DXPSN, all your favorite commands will be issued automatically. I have found this to be a big time saver. However, during a contest, when you often get disconnected and have to reconnect, it's a good idea to disable this function. This is done just by saying UPLOAD/USERCMD <enter> /EXIT <enter> to empty the file. You can view the contents of your USERCMD file at any time by entering TYPE/USERCMD.

#### A 73 FAREWELL FOR '92-'93

That's all, folks. I leave the prexy gavel in good hands attended by another good board. I might be gone, but I won't forget what a great year we all had. 73

## Wolbert's Words

### WPX

WPX phone has just concluded as I write this. Results will appear next month. Remember the CW weekend is 29-30 May. Keep our WPX victory streak alive and KB!

### ARRL DX Contest Notes

I collected scores for both NCCC and NCDXC for the ARRL DX contests. By Jug deadline, scores are still trickling in, with a couple of days before submission deadline. The results appearing here are close, but not necessarily final. Please note I have totalled the score several ways. A majority of entrants are dual members; both NCCC and NCDXC. These scores will be submitted for the NCDXC total, per our long standing agreement. A separate total for NCCC-only members and a grand total for all locals is shown. Since ARRL does not accept out-of-area members or DXpeditions for club totals, they are not included in the calculations.

### Northern California ARRL DX Test Scores

NCCC Potential:	12,431,753	35 entries
NCCC Actual:	3,046,829	4 entries
Combined Total Score, NCCC + NCDXC	12,939,110	42 entries

Potential Score is the entry NCCC could make if we did not contribute to the NCDXC effort. Actual Score is the total of NCCC-only members. This is the NCCC effort that will appear in QST. Combined Total Score is the total of all logs received, including single club members.

### Challenge for 1993

April brings NCCC elections. We must choose our club officers and also discuss our direction for the year. In 1991, we emphasized CQWW. Our "Major Operating Event" in 1992 was Sweepstakes. What will we emphasize this year? What do you want to emphasize this year! Your highly-paid Board of Directors needs your input. Make sure you get to the April meeting so your voice is heard. As I recall, last year's focus on SS resulted directly from a motion from the floor by a member. Ya gotta be der ta be herd!

In previous years we had rivalry challenges with So. Cal. CC for All Asian. We always exert a 110% effort in our own California QSO Party. We could continue our stomping of the "competition" in WPX, also. Then there is the IARU RadioSport (or whatever they call it this year), and the club competition for ARRL 160m. Or we could.....(be at the meeting and join the discussion!)

Get those scores to me. Remember, my roster address is wrong. Please send to N6IP, via DXPSN, or (408) 258-1015, or to Bob Wolbert, 10028 Bon Vista Ct., San Jose, CA 95127

73 & KB de Bob

N6TV bestows yet another award to Bip, W6BIP, this time for the ARRL Sweepstakes. Be sure to catch the special story about BIP in the last NCJ.

## APRIL JUGOLOGY

Last month's quiz was won in a breeze by two of you who got to the phone, apparently the same minute the JUG arrived. You remember we gave this first line of a well-known poem:

"By the old Moulmein Pagoda, lookin'  
eastward to the sea."

You were asked to identify the sea, and the country by prefix, in which this poem is set. Title and author identification win extra awards, (read Dubs).

Answers: Andaman Sea, and XY-KZ. The line is from the poem, "Mandalay", author, Rudyard Kipling. You remember him. He provided a lot of adventures for Victor McLaughlin and David Niven and Gary Cooper about life on Her Majesty's Indian Frontier. He also wrote "Kim" and the "Just So Stories".

First winner: Dave AF6S. Almost instantaneous response. He musta met the mailman on the street with his cordless in hand.

Second winners: Barb and Dave Leeson, KK6QM and W6QHS respectfully. Not only did they know all the answers, but they knew who wrote the music. Yes, it was set to music--by Oli Speaks(sp?) and popularized by American baritone Lawrence Tibbett. The Leeson's probably have it memorized and sometime if a meeting gets rowdy, maybe will give us a 'round of this famous chorus which goes thusly:

*"Cooooommmmmmmme ye back to Mandalay,  
Where the old Flotilla lay.  
Can't you 'ear their paddles chunkin'  
from Rangoon to Mandalay?  
On the road to Mandalay,  
Where the flyin'-fishes play.  
An' the dawn comes up like thunder  
outer China 'crost the Bay?"*

### APRIL JUGOLOGY QUESTION

We have had but timid participation in our JUGOLOGY/JUGOGRAPHY features from the 120 or so brilliant injuneer members of NCCC. In hopes of finding a question more suitable to injuneering intellectual capacity, we offer this special injuneering question for injuneers only. Ready?

This is the 50th anniversary of the well-known Rogers and Hammerstein Broadway musical OKLAHOMA. Question: In what state did the action of the play take place and who wrote it?

If you think you know the answer, or would like to guess, please respond using the usual High Teknikal methods, semaphore, jumble drums, bytes and bits, smoke sigs, to win a BUD, ahhhhhh DUB!

From top, Pres, N6TV, giving the honors to winners: N6EK N6DA, AG6D, N6BT.

## W6OWQ -- SILENT KEY

BY K6HIO

William S. "Bill" Jackson (W6OWQ) became a silent key at 10:30 pm on Friday 3/5/93 in Nice, CA after a long and complicated series of physical problems.

Until his death, he was still fairly ambulatory and of good spirits, and ham radio was one of his remaining joys. He was an avid RTTY and contest fan (especially on 20m), and known to many around the world. In the Belmont, CA area his 100' Sky Needle with its stack of beams (including a 2 element 40m Yagi) were a local landmark for many years.

During the Alaska earthquake, he became the only radio-path to that area (even the military couldn't get thru), and he and several volunteer relief operators handled all traffic in and out of Alaska.

Known by his friends as someone who never said no when asked for help, someone who would give you his shirt if you needed one, he will be sorely missed by those who knew him.

WINNER SCOTT, N1EE, MODELS THE NEWEST LOOK IN T-SHIRTS, THE CQP LOGO

## TROSTEROSTER

Sage advice from Winner TREY, WN4KKN. "It might be a good time to remind people of their obligation to write thank you notes to the individuals who sponsored a CQP trophy they may have won. The patronage of sponsors should not be taken for granted. Writing these small notes is one of the responsibilities that comes with success in contesting." Trey suggests also that wine winners write thank you letters too. For ideas, ask Trey for copies of those he sends out.

NCCC is pleased to note that Trey has been named editor (a prestigious post), of **The National Contest Journal**. We suspect Trey will operate the NCJ the way he runs JAS--with easy and efficiency.

\*\*\*\*\*

These stories came to the attention of the ever-vigilant editors this month.

The first one from BILL ORR, W6SAI. He was in Hawaii and, as usual, on arrival, strung up a 20 meter dipole. He tuned up about 14045 KHz sent a series of VVVVs then held a long dash to check the meters. Someone came on frequency and asked "QRZ." "Dahditdit dit W6SAI/KH6." Reply: "de P5RS7 599." Gulp from W6SAI: "599 TU". And then the band caved in!

\*\*\*\*\*

Here's another story from sunspot counter AL, W6RQ. Al went to Rose Polytechnic Institute in Northern Indiana. They used to play Notre Dame in football, so I don't have to tell you when Al attended Rose Poly. There were 18 men on the Rose football team which meant that when they practiced, they had nine men per team. The coach's mother made the uniforms because the school had no money and the coach didn't even have a salary. The Profs were consultants in industry; that's how they made ends meet. Tough on the Profs but great for students who benefitted from their practical knowledge.

The football team was pretty good and had the solid support of the entire student body. There was always a good crowd for the games and the students lustily cheered the team. They always knew who was going to carry the ball just as soon as Rose broke out of the huddle. He was the fella who was crying!

\*\*\*\*\*

Tom, N6BT, is not only a far-out guy, these days he's way up there too. FORCE 12, Antenna Systems his new company is officially open for business and piling up (oops!) orders. Best of luck to Tom

## THREE CHEERS AND MORE

Our outgoing slate of officers, N6TV, N6IP, WA6SDM, exemplifies how well a club can function when those in charge are not only capable, but willing to put in the extras, energy, effort, and interest, to make it a satisfying endeavor for all. Bob Wilson aptly expressed the excellent work done by the other officers he worked with. We add our personal appreciation and that of the membership at large in thanking each officer, board member and special chairpersons and consultants, such as awards' chairman, for these jobs so well done.

Let's now join in a mega-round of cheers for Bob Wilson himself. True, he and the board had an active, spirited membership behind them with plenty of good interest and participation for each meeting, but none of that happens if it doesn't get started at the top. It was he who set the pace this year, as an outstanding prexy of know-how and wit, arranging meetings that were cleverly entertaining and informative, and bringing an infectuous enthusiasm to contesting as a club. As editors, we looked forward to featuring TV GUIDE. It was always in good form, bright and informative. Thank you with fullest appreciation for a year we all enjoyed.. We can even say, thanks a milli-yon, from us and from the membership of NCCC.

### ANDY ACCEPTS

This bottle of CQP wine  
Is a Prize that barely is mine.

But I'm pleased as punch  
to be here with this bunch

Of testers, one and all, mighty fine

## A JUG FEATURE STORY

A little while ago in one of our serious weekly telephone conversations, Jim Maxwell, W6CF, and I discovered that we both had read and clipped the same story for use someday in some deserving publication. We both knew the author, having worked him many times. I had the story earmarked for the JUG, of course. Jim had been requested by another publication to submit something for publication, so he had written an introduction and had the story ready to go. However, that other publication didn't use it. Hence complete with Jim's introduction, we're jumping in and reprinting it here for JUG readers. Thanks, Jim. (ISQ-Ed.)

### DX & ETC de Jim, W6CF

The fascination of DXing lies not only in making long haul radio contacts, but also lies in learning more about the places and folks I've worked throughout the world. Consider, for example, Jo Doering, DLIRK, who lives in Germany, north of Frankfurt. I first worked Jo too many years ago to remember. We say hello to one another in a brief chat occasionally, always on CW. (He's a super CW operator), and we've had two or three eyeball QSLs. Then, a bit more than a year ago an article written by Jo appeared in the Winter 1991 issue of Focus, a CW magazine published in the U.K. I was stunned. My friend had been keeping a fantastic story secret for nearly 50 years. It instantly became my all-time favorite radio tale. And it's TRUE! Here it is, for all of you to enjoy.

### A REMARKABLE QSO

By Jo Doering, DLIRK

During WW2 I served as a Lance Corporal in a special army signal corps unit in the Afrika Corps. We intercepted the enemy's tactical radio communication in the African war theater and used to be Rommel's ears.

Late afternoon on May 7th 1943, five days before we had to surrender to Tunisia, our company commander asked me if I would like to communicate with the enemy. "Sure I do," was my answer. My first thought was that it was the give up message, the end of the fighting in Africa. But the message to be sent was about a target not to be bombed. Since the allied bombers flew in from the west, the message had to be addressed to the British 1st Army who operated in this area. Therefore I chose a radio net from HQ British First Army, noted frequency and call signs, took the message and went to the transmitter van about half a mile from our receiving site.

The British net was very busy that night, and I had to wait for a long time. Meanwhile I practiced with the straight key since I had not used one for about a year or so sitting in front of a receiver taking down the foe's radio traffic. At last the net I was tuned into had worked up all the traffic they had at hand.

Now it was my turn. With the 80 watt Lorenz transmitter carefully set to zero beat and with the "borrowed" call they had used last, I hit the key: "QTC" and then I made a big mistake by using the British 8th Army's "X279?" instead of the 1st Army's "QRK?" The HQ station came back with a question mark. I started over again, but this time with "QTC1 QRK? K." QRK 5 was the answer. DADIDADIDAH, "to the headquarters allied expeditionary forces in Africa from the HQ of the Axis Forces in Africa." Then the guy I had the call "borrowed" came in: "That's not me, it's a propaganda message from the enemy. But I broke in with "It's not propaganda, but life or death for your own people." In the end the HQ station told me to go ahead with my message.

It read as I recall from my memory: "Two ships are in the harbours of Tunis. One freighter with 600 allied prisoners in the holds and a hospital ship. Do not bomb those two ships to save lives of your own people."

I received "QSL" for my message and said I will QRX tomorrow same time, same frequency for a possible reply. No reply was received during the next days. The event faded in my memory during the years to follow until in 1950 I bought a book about the war in Africa. In it I found the message I had sent and the reaction that took place. General Alexander, Commander of the British 1st Army, met the captured German General von Arnim and thanked him for the message which saved 600 of his soldiers. He agreed to send 600 wounded Germans in a hospital ship to Italy.

In a small way I had helped to add some human touch in this cruel war. Therefore I call this my only worthwhile QSO ever.

Visalia Hospitality	(\$ 200.00)	(\$ 0.00)
Self-funding events	(\$ 0.00)	(\$ 25.94)
Contingency funds	(\$ 200.00)	(\$ 35.69)
Total	(\$ 472.00)	\$1,657.45
		\$3,459.15

As of March 28, 1993, the balance in our Wells Fargo checking account is \$5,135.52. There is \$1209.65 for the repeater fund, \$1,800 for CQP 'T' shirts, of which \$1602.75 has been spent on the shirts. \$460 has been received for CQP mailings and plaques.

Jim Hollenback, WA6SDM, Sec./Treas. March 28, 1993  
 Ed. Note: Thanks Jim for your prompt, clear Treasurer's reports and labels each month. Your reliable efficiency helped much.

Sec/Treas Jim, WA6SDM gets his award from N6TV

## NEW DATE, NEW TIME

### NEXT MEETING

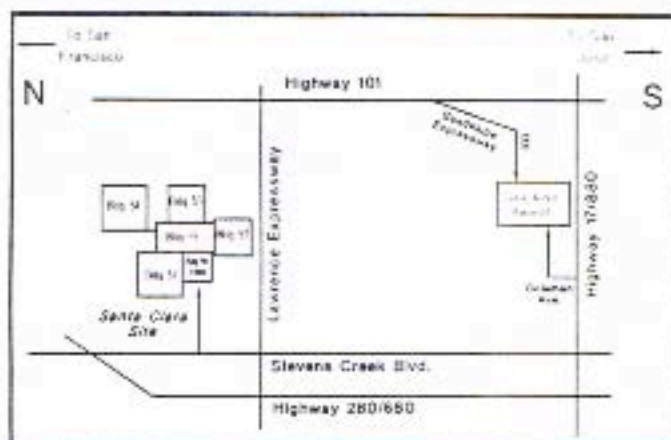

Friday, April 30, at Hewlett Packard in Santa Clara is when and where our next meeting will take place. Promises to be good with pizza and soft drinks, at about \$5.00 per person, election of officers and board, and, ta dah- THE DOMINICA DUO, presenting a program of slides and commentary on the Contxpedition DXing, the island, and the snorkling. Who says amateurs don't have fun. Check in about seven, for choice of pizza and drink, election, and program to follow, in that order.

Map below shows the way to the Hewlett Packard complex in Santa Clara, at 5301 Steven Creek Blvd., Building 50. The meeting will be held in the Santa Cruz conference Room, just off the main lobby. On entering the grounds you will go past guard, straight ahead, crossing moat.

From North on 280, exit at Stevens Creek Blvd turning left onto Stevens Creek, and left at first stop light.

From South on 280, exit Lawrence Expressway, take middle lane and make left turn onto Stevens Creek Blvd., and right turn into HP.

See ya!

Awards Chair, W0YK, Veep N6TP, and Pres. N6TV
